Guidance information

- 1 Assessment conditions:
Evidence for the practical components of this unit standard must be generated in a health or wellbeing setting.

People awarded credit for this unit standard must work under the guidance and delegation of a health professional in accordance with own role and responsibilities, and organisational policies and procedures.

- 2 Range:
Evidence generated for assessment against this standard must reflect workplace requirements specified in:
- documented organisational policies, procedures, and methodologies;
 - applicable health and safety plans, contract work programmes, and quality assurance programmes.

Evidence generated for assessment against this standard must reflect the values, processes, and protocols required to work with Māori, Pasifika, and people from diverse cultures.

Evidence generated for assessment against this standard must reflect the legislative and regulatory requirements specified in:

- Health and Disability Commissioner (Code of Health and Disability Services Consumers' Rights) Regulations 1996 (the Code of Rights);
- Health and Disability Services (Safety) Act 2001;
- Health Practitioners Competence Assurance Act 2003;
- Health and Safety at Work Act 2015;
- Human Rights Act 1993;
- Medicines Act 1981;
- Privacy Act 2020.

Evidence generated for assessment against this standard must reflect the best practice guidelines and principles specified in:

- NZS 8134.0:2008 *Health and disability services (general) Standard*;
- NZS 8134.1:2008 *Health and disability services (core) Standards*;
- NZS 8158:2012 *Home and Community Support Sector Standard*.

NZ standards can be retrieved from <http://www.standards.co.nz/>.

3 Definitions:

Health or wellbeing setting includes but is not limited to the aged care, acute care, community support, disability, mental health, rehabilitation, social services and youth development sectors.

Health professional refers to a person who is registered with an authority (which is appointed by or under the Health Practitioners Competence Assurance Act 2003) as a practitioner of a particular health profession to deliver health services in accordance with a defined scope of practice.

Organisational policies and procedures are the policies, procedures, and methodologies used in an organisation. They include legislative and regulatory requirements which may apply across an organisation, a specific site, or a workplace. Requirements are documented in organisational health and safety plans, contract work programmes, quality assurance programmes, policies, and procedural documents such as job descriptors and employment contracts.

Person is a person accessing services. Other terms used for the person may include client, consumer, customer, patient, individual, resident, or service user.

Support should aim to maintain, improve, or restore a person's independence by utilising existing strengths and appropriate resources; but may include providing assistance to enable a person's health and wellbeing needs to be met.

Outcomes and performance criteria

Outcome 1

Describe the impact of a brain injury on a person's health and functional status.

Performance criteria

- 1.1 Brain injury is described in terms of real and potential impact on health and functional status.

Range	physical, emotional/psychological, social, cognitive, environmental, cultural.
-------	--
