## Introduction

The Careerforce 3 year moderation plan (2020 – 2022) provides guidance to Tertiary Education Organisations regarding the unit standards Careerforce seeks to moderate over the coming three years. This document should be read in conjunction with [CMR 0024](#).

CMR 0024 states the following regarding post-assessment moderation requirements:

All organisations assessing against assessment standards must present samples of learners' work gathered from assessments conducted within the current calendar year or from the second half of the preceding year.

Samples submitted for post-assessment moderation must include:

- the assessment tasks;
- criteria used by the assessor to make assessment decisions (assessment guide/schedule, marking guide, model answers, exemplars);
- a matrix that maps assessment tasks to the assessment standards;
- samples of learners' work accompanied by assessor feedback to the learners

Education providers must supply:

- a minimum of 3 samples of learner assessments for each of 3 different unit standards every year for post-assessment moderation from each delivery site in New Zealand where site-specific assessors are used.
- samples must include assessments from each programme containing Careerforce unit standards delivered by the provider in the year being moderated.
- a minimum of 3 samples of assessments for 3 different unit standards every year from each overseas delivery site.
- samples from overseas sites must include assessments from each programme containing Careerforce unit standards delivered overseas by the provider in the year being moderated.

Unit standards are scheduled in the 3 year plan based on the risk they present to the sectors they belong to, and the history of moderation of said standards. Some standards will be scheduled in each of the three years.

Unit standards are arranged in this document by domain. Careerforce suggests the use of the 'find' function (Ctrl+F) to search for unit standards that are within your approved programmes.
