## Introduction

The Careerforce 3 year moderation plan (2020 – 2022) provides guidance to Careerforce assessors regarding the unit standards we seek to moderate over the coming three years.

Careerforce moderates assessment of unit standards to ensure that there is a consistent high standard of assessment practice being undertaken across the country and across the sectors we support. This serves to protect our trainees in the sector, and to improve health and wellbeing outcomes for those our trainees support. Moderation is a continuous development process, Careerforce seek to improve assessment practice and support assessors to excel in their roles.

Unit standards are scheduled in the 3 year plan based on the risk they present to the sectors they belong to, and the history of moderation of said standards. For these reasons some standards will be scheduled in each of the three years.

Unit standards in this document are arranged by the scope that they are associated with. To meet your moderation obligations consider the unit standards at the highest level of your scope, that you find most difficult to assess, and which you would appreciate most support with.

Consider using the ‘find’ function (Ctrl+F) to search for the specific unit standards you would like support with. If they appear as a unit we wish to target in the current year then please submit a sample for moderation before your re-registration date, or bring this to peer moderation. These units should be your highest priority for submission for moderation.

Careerforce reserves the right to call any assessment sample for moderation at any time and may seek to make targeted requests in order to meet its own quality assurance targets.

If the units you most want support for, or the units you have assessed, aren’t in the current year we will still be more than happy to accept these for moderation.

For feedback and support please contact [moderation@careerforce.org.nz](mailto:moderation@careerforce.org.nz).
