----------------	--

<b>Classification</b>	Health, Disability, and Aged Support > Whānau Ora and Community Support
-----------------------	---

<b>Available grade</b>	Achieved
------------------------	----------

**Guidance Information**

**1 Definitions**

Health or wellbeing settings may include but are not limited to – the acute care, aged care, community support, disability, mental health, social services, and youth development sectors.

Holistic needs include physical, emotional, social, cultural, spiritual, mental, socio-economic, creative, and occupational.

People refers to those accessing services in a health or wellbeing context and includes the family, whānau and natural supports of the person who is at the centre of support. Other terms used for this person may include client, consumer, customer, patient, individual, resident, service user, tūrora or tangata whai ora.

Service philosophies refer to the models or approaches of support that may be applied within a health or wellbeing setting. A service philosophy provides an overarching set of underlying principles, aims and objectives, operational parameters, and reviewable outcomes which direct the nature of consumer support and the way in which it is provided.
