Five year moderation plan 2016 - 2020

Introduction

The Careerforce Five-year Moderation Plan 2016-2020 sets out the unit standards which Careerforce intends to moderate each year within this five year period. They are listed by qualification. In addition to this moderation plan, Careerforce may select further unit standards for moderation in any one year, in response to:

- the volume of credits being registered on to the NQF; and/or
- any exposure to risk associated with a particular unit standard.

Certain Careerforce qualifications contain unit standards that fall under the responsibility of other standard setting bodies, e.g. Unit Standard 11097 Listen actively to gain information in an interactive situation, which is included in the National Certificate in Health, Disability, and Aged Support (Core Competencies) Level 3. These unit standards have been identified by bold print. From time to time the relevant standard setting body for these unit standards requires Careerforce to submit samples of assessment to meet its moderation requirements.

Where there have been no assessments against a scheduled unit standard, moderation of that unit standard will be postponed until the following year.
